**DIVISION OF SCIENCE RESOURCES STUDIES**

The Division of Science Resources Studies ( SRS ) fulfills the legislative mandate of the National Science Foundation Act to ...

*provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal Government...*

To carry out this mandate, SRS designs, supports, and directs periodic surveys as well as a variety of other data collections and research projects. These surveys yield the materials for SRS staff to compile, analyze, and disseminate quantitative information about domestic and international resources devoted to science, engineering, and technology.

If you have any comments or suggestions about this or any other SRS product or report, we would like to hear from you. Please direct your comments to:

# ACKNOWLEDGMENTS

This report was prepared by John E. Jankowski, Program Director, Research and Development Statistics Program (RDS), Division of Science Resources Studies (SRS), National Science Foundation.

Overall review was provided by Mary J. Frase, Acting Division Director and Ronald S. Fecso, Chief Statistician, SRS. The text was reviewed by Jean M. Johnson, Richard Bennof, Kelly H. Kang, and Alan Rapoport of SRS; Christopher M. Coburn, Battelle, and Albert H. Teich, American Association for the Advancement of Science. Graphics editing and preparation were provided by Jennifer Speer, RDS, and Jacquelyn Nguyen, Compuware. Anne M. Houghton and Julia H. Harriston, SRS' Information Services Group, provided copyediting, processing, and final composition.
